Energy conservation: As a part of the Cowboy family, you are both an “energy saver” as well as an “energy consumer.”

- When not in use, turn off all computers, monitors, speakers, and printers.
- Unplug all chargers, fans, coffee pots, and other appliances when you are away.
- Before long breaks, clean out small refrigerators, and unplug with door propped open.
- Close blinds and tilt slats upwards to keep cool on hot days.
- Turn off lights, and unplug all seasonal lights.
Get experienced!

Career: OSU provides classroom education and research on sustainability and sustainable development topics.

Organizations: “Walk the talk” and set an example for peers by reducing waste & conserving energy within your residence hall. Apply to be an Eco-Rep for your Board of Directors.
Get smart!

- When recycling you can reduce your impact on the environment, and provide feed stocks for the creation of new products.
- Recycle on campus in the OSU Recycles and ResLife Recycles programs.

**Reduce, Reuse:**

- Look for minimal packaging; bulk or concentrate forms.
- Take only what you will eat.
- Report leaky faucets and shower heads: (405) 744-8510.
- Choose durable rather than disposable.
- Rent, borrow, share or buy used instead of purchasing new.
- Wash full loads of laundry and use cold water.
- Have items repaired when possible.
- Carry a reusable bag for purchases and reusable cup.
- Purchase products made with recycled content.
